

AI Automation Opportunity Finder

A 10-minute worksheet to spot the automatable tasks hiding in your own business.

Step 1 – List your team's most repetitive tasks

What eats hours every week and rarely needs real judgement? Write the top five.

Step 2 – Score each one

A task is a strong candidate if you can tick most of these for it:

- | | |
|--|--|
| <input type="checkbox"/> High volume (happens often) | <input type="checkbox"/> Repetitive / rule-like |
| <input type="checkbox"/> Mostly reading or typing | <input type="checkbox"/> The data already exists digitally |
| <input type="checkbox"/> Team quietly dreads it | <input type="checkbox"/> Low risk if occasionally checked |

Step 3 – Common places to look

- | | |
|--|--|
| <input type="checkbox"/> Answering routine phone calls | <input type="checkbox"/> Sorting & routing inbound email |
| <input type="checkbox"/> Copying data between systems | <input type="checkbox"/> Processing invoices / documents |
| <input type="checkbox"/> Qualifying & booking leads | <input type="checkbox"/> Generating standard replies/reports |

Step 4 – Pick ONE to pilot first

The task:

Hours it costs per week now:

How you'll measure success:

Not sure which to pick?

BLANCORE helps UK businesses find and build their first AI automation — with a scoped pilot before any big commitment. Start free at blancore.tech.
