

AI Agent Use-Case Finder

Spot the tasks where an AI agent could do real work — not just chat.

1 — List your multi-step routine tasks

Jobs where someone clicks between several screens to get one thing done.

2 — Score each one for agent-fit

A task suits an AI agent if you can tick most of these:

- ☐ It's **repeatable** and follows a fairly clear pattern
- ☐ It spans **2+ systems** (e.g. inbox → CRM → calendar)
- ☐ It's **high-volume** — happens a lot
- ☐ Most steps **don't need human judgement**
- ☐ Mistakes can be **caught and corrected**

3 — Your best first agent

The task:

Systems it must reach:
